USDA Receiver

Diverter Valve

Pace Company was established in 1986 as a premier equipment supplier for bulk material handling to Virginia's industry, including those in the pharmaceutical, chemical, food, cement, tobacco, and mineral industries. Over time, our clients came to rely on us to provide innovative, cost-effective solutions. Questions such as, "how do you think we should do this?" became an opening for many clients either wanting to set up new processes or improve manufacturing flows and integrity.

Ribbon Blender

As a solution provider our assets include first line manufacturers here in the Commonwealth. These bulk material handling companies are backed by their team of engineers, designers, testing specialists and project managers. With these partners and our industry knowledge, Pace is able to source the best equipment and most appropriate technology for our customers.

Railcar unloading, feeding, blending, grinding, product packaging—an entire system from start to finish—Pace has you covered. Our capabilities ensure that your project is on time, on target and on budget.
