

# Bulk Process Equipment

From railcar and bulk bag unloading and loading to size reduction, conveying and feeding, Pace can help source one piece of equipment or a complete process line!

## Air Filtration

Dry & Wet Dust Collectors  
Cartridge, pulse jet and scrubbers

## Conveying Systems

Pneumatic (Vacuum or Pressure)  
Mechanical (Belts, Buckets, Screws, Flexible Screws, Aeromechanical)  
Fully engineered systems

## Bulk Bag Unloading

Unloading with forklift or hoist  
Agitation for flow promotion

## Bulk Bag Filling

Cantilevered mast height adjustment  
Loop hanger auto-release  
Fully automated systems

## Ducting Systems

3D Designs for clamp together ductwork or tubing

## Explosion Suppression Systems

Materials testing and protection systems that include explosion suppressors, vents and isolation devices

## Valves

Slide Gates, Diverters, Orifice, Iris and Butterfly

## Feeding Systems for Dry Materials

Volumetric and gravimetric feeders, weighbelts, and belt scales

## Loading Systems for bulk materials

Truck, Rail and Maritime

Spouts, air slides and control packages

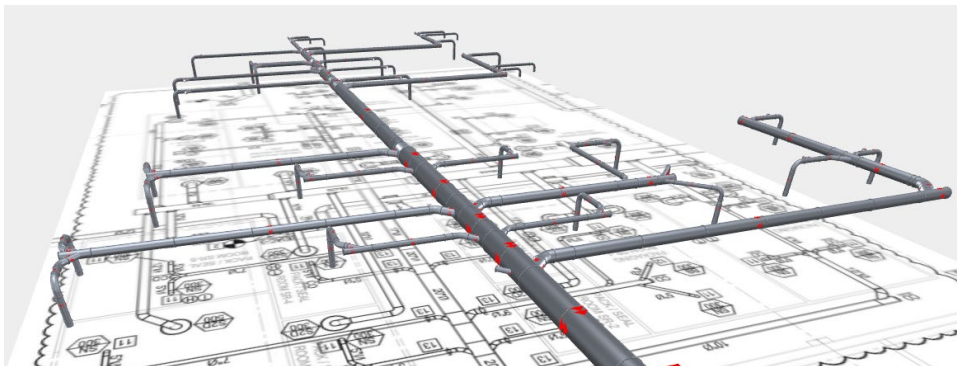

## Size Reduction

Hammermills, Fine Grinders, Air Classifiers

## Level Monitoring Systems

Rotary paddle, vibration and capacitive devices for solids and liquids
