

**Innovative Process Solutions**

- Air Filtration • Conveying • Ducting
- Explosion Suppressing • Feeding • Level Control
- Loading • Mixing • Packaging Automation
- Size Reduction • Storing • Valves

SERVING VIRGINIA SINCE 1986

# Bulk Process Equipment

From railcar and bulk bag unloading and loading to size reduction, conveying and feeding, Pace can help source one piece of equipment or a complete process line!

## Air Filtration

- Dry & Wet Dust Collectors
- Cartridge, Pulse Jet and Crubbers

## Conveying Systems

- Pneumatic (Vacuum or Pressure)
- Mechanical (Belts, Buckets, Screws, Flexible Screws, Aeromechanical)
- Fully engineered systems

## Bulk Bag Filling

- Cantilevered mast height adjustment
- Loop hanger auto-release
- Fully automated systems

## Bulk Bag Unloading

- Unloading with forklift or hoist
- Agitation for flow promotion

## Ducting Systems

- 3D Designs for clamp together ductwork or tubing

[pacecompany.com](http://pacecompany.com)

## Explosion Suppression Systems

- Materials testing and protection systems that include explosion suppressors, vents and isolation devices

## Loading Systems for Bulk Materials

- Truck, Rail and Maritime
- Spouts, air slides and control packages

## Feeding Systems for Dry Materials

- Volumetric and gravimetric feeders, weighbelts, and belt scales

## Size Reduction

- Hammermills, Fine Grinders, Air Classifiers

## Level Monitoring Systems

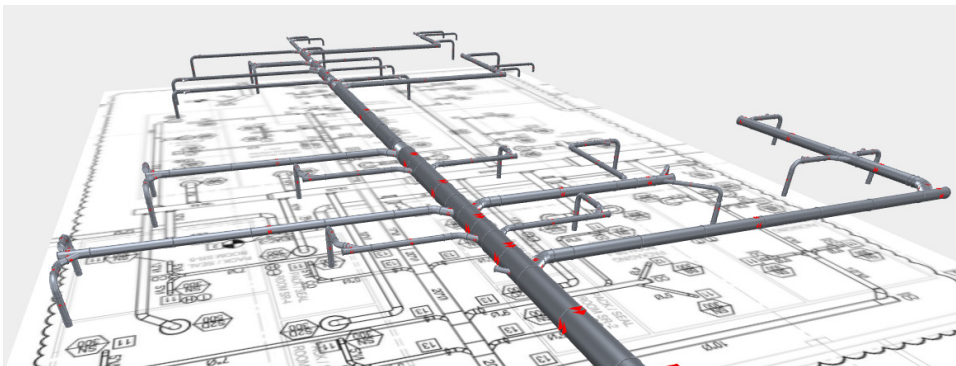

- Rotary paddle, vibration and capacitive devices for solids and liquids

## Valves

- Slide Gates, Diverters, Orifice, Iris and Butterfly
